

PROJ 216 Assignment 1

Working in your Threaded Project groups (from PROJ 207), develop statements for the following elements of the Project Definition:

1. Project background
 - Why and how the project was created? What business need does it address?
2. Start date and end date
 - Start date is the first day of your program. End date is the last day of your program.
3. Project stakeholders
 - Who is your client? Are there any specific roles involved in the project?
4. Project goals & objectives
 - What is the end result of your project?
 - What are the SMART steps to achieve this end result?
5. Project scope (Phase 1)
 - List deliverables of your project (major pieces of functionality)
 - For now, address just the first phase of the project (Website that you develop and will present in the first presentation)

Submit one copy per group into Assignments Dropbox on D2L. It does not matter who submits: the mark will be duplicated for all group members and feedback will be provided through the person who submitted).
